

Jill Estes was nominated to be featured by her husband Mark. The following is a moving description about her positive impact on our community.

“My wife Jill Estes is recognized in our community as an outstanding teacher and amazing person. She teaches 2nd and 3rd grade at the Tracy Learning Center. She spends countless hours preparing for each school day to ensure that her students learn as much as possible. Jill also helps write her students’ curriculum for the year as the school does not use standard textbooks to teach. Her work day does not end when she leaves campus -Jill brings a lot home and spends the nights preparing for the following day’s classroom projects, constantly coming up with new ideas and activities for her students to keep them interested in school. She cares so much about each and every student and gives so much of her mind and heart to the school. She is such a dedicated and outstanding person and I’m so very proud of her.”

-Mark Estes
